UNCIVILISED GENES: HUMAN EVOLUTION AND THE URBAN PARADOX (PAPERBACK)

Independent Thinking Press, United Kingdom, 2017. Paperback. Condition: New. Language: English. Brand new Book. In *Uncivilised Genes: Human Evolution and the Urban Paradox*, Gustav Milne explores how we can reconfigure our lifestyles and urban environments, based on an understanding of our prehistoric past, in order to bring about a richer future for mankind. We evolved as hunter-gatherers over a period of more than three million years: living off the land within small tribal societies in a symbiotic working relationship with nature. Understanding this legacy and how our evolution has determined our social, psychological, nutritional and physiological needs means we can adopt what Milne has termed evolutionary-concordant behaviours: behaviours designed to reconcile the fundamental mismatch between our current urban lifestyles and our ancient biology. Our ancestral diets and lifestyles could hold the secret not only to enhancing our health and happiness but also to combating the prevalence of western lifestyle diseases such as obesity, type 2 diabetes and various types of cancer to name but a few. Drawing on what archaeological evidence reveals about Palaeolithic and Mesolithic diets, as well as on anthropological studies of contemporary hunter-gatherer societies, *Uncivilised Genes* offers timely insights to enhance our collective and individual health and prosperity. It also shines a spotlight on the evolutionary determinants of social behaviour, and looks at how we can bridge the gap between the world we are creating and the un-urbanised, uncivilised world to which we are genetically and psychologically better adapted. This book is not a rejection of modernity. Neither is...
